A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn *why* this medicine has such a wide range of application in the cure of diseases. It is sent *free*. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The following is the report of the Alexandria Free Night School for the session of 1905-6

The school opened on October 10th with an enrollment of 41 names. The average attendance has been 22 41-48 or 23 boys an evening, the lowest number being 10, the highest 34.

Of these six show a record of from 40 to 50 evenings for the 26 weeks, being every school evening for the session. Six boys show an attendance of over 30 evenings, eleven boys over 20 evenings, sixteen boys an attendance of from 10 to 19 evenings, and the rest, 13 of whom are new boys, who have come in since the 1st of March, have been present from 2 to 10 evenings; 9 boys have left during the session, 4 to attend day school and 5 for other reasons; 81 boys have attended since the beginning of the session.

During the year the school has had two superintendants, Miss Florence Purcell, up to January 12th, and since that time Miss Fanny M. Burke. The regular teachers have been Mrs. Jorg, Miss Rosa Duffy, Miss Daisy Chase and Miss Fanny M. Burke; the assistant teachers Mrs. L Washington, Miss Niece, Miss Minnie Philips and Miss Laura Hull. Mrs. Cary Chaplain of the school has also acted as assistant teacher.

The help of the police has been asked, and most obligingly accorded nine times, six times merely to walk by the school and see that the boys dispersed quietly, as is done at the day schools, and three times to control unruly boys who refused to leave for the evening, on being requested to retire by the Superintendent.

For the rest of this session any boy who makes it necessary to call in the aid of an officer to induce him to leave will be expelled for the remainder of the session and will forfeit any prizes to which he might be entitled. There will be prizes for punctuality, regular attendance, good behavior and improvement in manners. Mrs. Barrett has offered a prize of $2.00 for twenty names of famous men who have risen from poverty and obscurity, and the best essay on any one of the twenty. The teachers will give prizes or not in their classes as they see fit. The W. C. T. U. having paid expenses up to the present time, without assistance, are now without funds, and as at least $25 will be required to run the school, successfully to the end of the session any contributions for this purpose sent to the teachers or superintendent will be most gratefully acknowleged by the ladies.

Predicted Earthquakes.

Claiming to have predicted to a certain extent, while under spirit control, the earthquake of San Francisco and the eruption of Vesuvius, Rev. Oscar A. Edgerly, at the Spiritual church, on west Franklin street, Baltimore, stated last night under similar conditions that the next seismic disturbances, in the not distant future, would occur in the Orient, particularly in the southern part of India and in the region of Japan, and that the disturbances would be far greater than that of Vesuvius and San Francisco.

The preacher spoke, it was stated, while under the influence of the spirit of a deceased Presbyterian minister, named Campbell. Mr. Edgerly stated to a reporter that a few days before the eruption of Vesuvius were reported a spirit stated through him that there were certain conditions in process of formation which would soon result in volcanic disturbances on the shores of the Mediterranean, and that conditions were ripe, owing to the processes going on in the interior of the earth, to cause the worse earthquakes on the Pacific coast and in other parts of the earth that have ever been recorded in the history of humanity. Rev. Edgerly stated that while under the influence of spirit control he predicted that Galveston would be overcome by a tidal wave. The prediction was made on April 29 previous to the month of September, when the terrible disaster occurred in Galveston.

Nightgown Parade.

A dispatch from Cambridge, Mo., says that the Missouri Wesleyan College board of trustees has been severely shocked. The peaceful atmosphere about that institution has been violently disturbed by the acts of the "co-eds," who room in the north hall. Under the very eyes of their preceptresses these daring maidens decided to celebrate their annual spring initiation by a "nightgown" parade. Clothed in flowing robes of snowy white and headed by a trumpeter, they marched about the grounds in the pale light of the moon. Awed by the unusual sight no one molested them; this in spite of staring men admirers attracted by the notes of the bugle. The parade has caused consternation among the members of the board and the college authorities want to reprimand the girls. The "co-eds" are stubborn in considering themselves anything but wrongdoers and are as one in meeting the actions of the faculty. The girls claim, as twentieth century American "co-eds" they have the unquestionable right to indulge in as many moonlight "nightgown" parades as they desire. The college authorities are at a decided loss at to what they should do in handling this delicate matter, and for the present action is suspended.

A Young Mother of 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood and cures Malaria, Biliousness and Weaknesses. Wonderful Nerve Tonic. Price 50c. Guaranteed at E. S. Leadbeater & Sons' drug store.

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

It is a terrible ordeal to a delicate, sensitive, refined woman to be obliged to answer certain questions when those questions are asked even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them, than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Mrs. Ella Lee, Frankford, Ind., writes: Dear Mrs. Pinkham:—

"I want to thank you for what your medicine has done for me.

"Three years ago I had a serious female trouble. I was under the doctor's care for about three months, and the only time I was not in pain was when under the influence of morphine. The doctor finally said I never would be better, and would be an invalid the rest of my life. I had given up in despair, but one evening I came across one of your advertisements and decided to write you for advice. I did so and commenced to take Lydia E. Pinkham's Vegetable Compound. I began to improve at once, and to-day I am a well woman, and I know it is all due to your advice and medicine."

Mrs. J. H. Farmer, of 2809 Elliott Avenue, St. Louis, Mo., writes:

Dear Mrs. Pinkham:—

"I cannot thank you enough for what your advice and medicines have done for me. They have done me more good than all the doctors I ever had.

"For the last eight years I have suffered with female troubles; was very weak; had nervous prostration, and could not do my work; but I am happy to say Lydia E. Pinkham's Vegetable Compound has made a different woman of me. I am in perfect health and have gained in weight from 98 to 122 pounds."

No other medicine in the world has received such widespread and unqualified endorsement.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass. She is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Cut His Throat with Razor.

Believing he was a burden to his brother, George Cohen, forty-four years old, went to his room, 1100 Seventh street, northwest Washington, Saturday night, and slashed his throat with a razor, death ensuing in a few minutes. His body was found early yesterday morning by his sister in law. For a year Cohen had been blind, the result, according to the police, of shooting himself in the head in an attempt to commit suicide. Since then he had been morose and moody, due to his crippled and dependent position. He had frequently remarked, it is said, he would end it all. Saturday night, while his brother was busy in the store on the first floor, Cohen left the office and went upstairs, and it is supposed slashed his throat immediately on entering his room. Cohen was married, but according to the police, had not lived with his wife and two children for the past year.

Dismal Swamp Boiling.

A volcanic disturbance of considerable proportions occurred late Saturday night on the edge of Dismal Swamp. The mud and slime in that portion of the swamp is boiling, throwing to the surface pieces of forest and undergrowth. Reptile and animal inhabitants of the swamp are exhibiting uneasiness, many of them seeking safety in flight to higher ground. The boiling mud so greatly agitates the surface as to make it appear as if millions of worms were wriggling just beneath the surface. People living in the vicinity of the swamp are following the warning example of the animals and moving away. It is feared that the swamp is going to follow in the wake of other sections of the world with a seismic outbreak.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, APRIL 23, 1906.

THE PRESENT condition of the world is but little appreciated by the generation now living from the fact that it has been born under an order of things which would have been regarded as miraculous by the grandfathers of people of today. Half a century ago it would have taken three months for the news of the California horror to have reached the Atlantic seaboard. At least as much time would have been consumed in the transportation of food and medicine; hence thousands would have perished from hunger before relief could have reached them. The events of the past week show the operation of another regime. While the seismic disturbance was still in evidence the news of the same was being flashed across the globe and soon relief trains were speeding over the continent to the relief of the unfortunates. The response for aid was spontaneous; it animated the entire country, and permeated Alexandria as soon as the news of the earthquake reached the city. Mayor Paff, after expressing the feeling of the people of this city for the stricken people of the Pacific slope in a dispatch to the Mayor of San Francisco, went to work in earnest to show more substantial sympathy for the sufferers. Governor Swanson issued an appeal to the people of the Old Dominion which the Mayor caused to be read in the Alexandria churches yesterday. In some places of worship collections were taken up at both services, and in others responses will be made next Sunday. In the meantime the Mayor has appointed a committee of citizens to receive contributions for the sufferers. All donations will be promptly forwarded to California for distribution to the people now in distress through no fault of their own.

WAVES of sorrow have a wonderful influence over the human race. They, for a time, at least, obliterate many of the lines of sand which cause men to differ, especially on religious questions. But one deity then appears to all, and the means of approaching are regarded as secondary. After the world had been destroyed by a flood the nucleus of the race gathered in the plains of Shinar with one speech and one mind. It was so in California yesterday. Cathedrals, churches and synagogues had been destroyed or seriously damaged, and worshippers appealed to Jehovah in the open air, when masses were celebrated, invocations made and sermons delivered. There was no Jew, Greek, Barbarian, Scythian, bond or free. On the steps of the shattered churches, and on the green slopes of parks and cemeteries the people of San Francisco assembled. Grateful for the opportunity to publicly express thanks for their preservation, and anxious for the words of cheer and comfort that will carry them through future trials the people assembled in larger numbers than is customary. There was no distinction as to sect or denomination, the gatherings including, as a rule, a large percentage of the families camping or residing in the vicinity. Catholic clergymen celebrated masses in the Jewish cemetery, and every creed knelt with bowed heads while the services were in progress. On the steps of St. Mary's Cathedral and on the upheaved pavement of Golden Gate avenue, overlooking the blackened waste that commenced just across the street, Archbishop Montgomery celebrated mass. The service was attended by thousands, covering the church steps and extending well up and down the street in either direction.

CONDITIONS in San Francisco have greatly improved. There is no lack of plain food and water now and the military and civic authorities are active in taking sanitary measures and preparing for the work of reconstruction and salvage. Thousands of people have left the city for other points in the State. Little sickness is reported among the great crowds encamped in the squares and park, though the great strain of the last few days is beginning to tell on the refugees. Over $12,000,000 has been raised for the relief of the San Francisco sufferers, and provisions are pouring in there by the hundreds of tons. Survivors of the San Francisco disaster arriving in nearby cities tell of the fearful hours that followed the blow.

THAT anti-administration forces in Congress are powerful enough to block legislation desired by the President is evidenced by the fact that, although the session is now nearly five months old, not a single important bill has found its way from the Capitol to the Executive offices. As the situation stands today the Senate seems determined to go ahead and do things in its own way, while the House will also do as it pleases, without reference to the Senate. The compromise programme recently proposed by Senate leaders to Speaker Cannon has not borne fruit, and it seems almost certain, unless some sort of a programme be soon devised, that the session will drag on to midsummer.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, April 23.

Encouraging dispatches from government officials in San Francisco are now being received almost hourly and the outlook for an early resumption of federal business is very bright. With the new postoffice, the mint and the appraisers' warehouse practically intact, the most valuable of government property in the devastated city was saved and the biggest bill the government will be called upon to pay will be that for repairs. Word reached the Treasury Department this morning that the steamship China, from the Orient, had arrived with a large cargo of supplies for Chinatown. Assistant Secretary Reynolds, who has general charge of customs, at once wired orders to admit the goods duty free—at least for the present. The owners of the supplies on the China will be expected to pay the duty after a while. It may be, in fact it is quite likely, that the cargo of the ship will be seized by the military authorities and applied to the relief work.

Lieut. Commander Morgan, U. S. N., wires from Mare Island to the Navy Department as follows: "Visited Union Iron Works today. Plant slightly injured. Government vessels uninjured. Date to resume work indefinite."

Chief Justice Fuller in the U. S. Supreme Court today announced that the motion of George A. Haywood, Charles H. Moyer, and William D. Pettibone, now in jail in Idaho, for the alleged murder of Gov. Steunenburg, to have a hearing of their appeal to the Supreme Court of the United States on habaus corpus proceedings advance on the docket, had been granted. The argument was set for the first Tuesday of the October term of 1906, or as soon thereafter as possible.

The Surgeon General of the army and the officials of the Red Cross announce today that there is no need of additional surgeons and nurses at San Francisco No additional advices regarding the outbreak of smallpox have been received beyond the official information given out last night that a few cases had been discovered and that they had been isolated.

War clouds are hovering over the rear guard of the Daughters of the American Revolution remaining in the city after the fifteenth Continental Congress, ostensibly to participate in the meeting of the national board of management today but in reality to engage in the row which became bitter at the closing session of the Congress Saturday night, owing to the resignation of Secretary General, Miss Mary Desha. Friends of Miss Desha, led by Mrs. Walter Harvey Weed, are already planning to print and circulate campaign literature against Mrs. McLean's re-election.

The members of the House committee on rivers and harbors, who are considering legislation to preserve Niagara Falls, will make a personal visit to Niagara before reaching a conclusion in the matter.

Division of territory in Virginia so as to avoid competition between the Norfolk and Western Railway and the Chesapeake and Ohio Railroad in the transportation of coal from West Virginia fields developed at the further investigation by the Interstate Commerce Commission today into the coal and oil business as authorized by the Tillman-Gillespie resolution. T. B. Hobart, general coal and coke agent of the Norfolk and Western, was on the stand during the morning session. Attorney Glasgow, for the Interstate Commerce Commission, drew from him the admission that by agreement the rate of the Norfolk & Western, to Richmond, Va., was 25 cents per ton higher than that of the Chesapeake and Ohio, and that the rate of the Norfolk & Western to Norfolk was 25 cents less than that of the Chesapeake and Ohio to the same point. This arrangement was in force for years and gave the Norfolk and Western a monopoly on coal carried to Norfolk and the Chesapeake and Ohio a monopoly to Richmond. Now the rates are the same to both points over either road, the Norfolk and Western making its change March 16, the very day after Congress passed the Tillmar-Gillespie resolution and the Chesapeake and Ohio on April 1 The carrying of coal to New England by tide-water and all rail routes was then taken up. Mr. Hobart admitted he didn't know why his company had not reduced the tide-water rates to get a larger share of the business.

The Supreme Court of the United States, today, in the case of Oregon vs. Secretary of the Interior Hitchcock and Land Commissioner Richards refused to take jurisdiction, thereby sustaining the demurrer of the government office and dismissing the State's bill. Oregon wished to restrain Secretary Hitchcock from allotting lands in the Klamath Indian reservation to individual Indians on the ground that the lands are swamp lands and under federal act are vested in the State.

The high French naval officers, here with their ships to assist in the John Paul Jones celebration at Annapolis tomorrow, arrived in this city today. They were escorted from the railroad station in carriages by Capt. Rodgers and others. After luncheon at the New Willard Hotel, the Frenchmen were taken to the White House where at 2:30 o'clock they were received by President Roosevelt. The visitors will be guests at a White House dinner tonight, returning to Annapolis tomorrow morning.

Senator Flint, of California, had an interview with the President this morning during which the situation in San Francisco was discussed at considerable length. President Roosevelt told Senator Flint that he would send a special message to Congress advocating an immediate appropriation for the rebuilding of such government structures as had been destroyed or damaged. The President's message is expected at Congress on Wednesday. It will ask for the immediate appropriation of $1,500,000 for the construction of an army and navy supply depot at San Francisco. It will also urge prompt compliance with plans yet to be recommended for the reconstruction of all federal buildings that have been destroyed in San Francisco, Stockton, Sacramento, Oakland, Alemeda and adjoining towns.

President Roosevelt has officially requested that the Chinese sufferers at San Francisco be cared for as well as persons of other nationalities, and sent a note to that effect to the Secretary of War today.

As the 900 picked athletes of the world moved past, presenting an imposing display, they were cheered to the echo.

Today's Telegraphic News

Conditions in San Francisco.

Oakland, Cala., April 23.—All day Sunday long streams of humanity wended their way down Market street, the only open avenue of escape, to the ferry building. They were afoot, in carts, wagons, automobiles and every conceivable thing on wheels, and carrying their few remaining effects. Mothers with babes in arms, aged and injured, were all in the motley throng. As far as the eye could see, on either side, the city was a mass of ruins. Nothing gave evidence of a place of fit habitation or that would afford even momentary rest for the weary in body or mind. In the other direction went wagons loaded with food and medical supplies, all speeding with medicines for hospitals. Here and there were many anxious men and women making their way to the parks in hopes of finding relatives in the vast throngs of refugees. A most pitiful sight it was. Yet, in all that throng, there was scarcely a wet eye or one look of despair.

The work of rescue in Oakland continued unabated. Tents sprang up on almost every vacant space, and willing citizens were on hand to offer needed aid from water to food or clothing. In the western section of San Francisco the military authorities are rapidly taking possession of the remaining residences in which people now camped in the parks can be housed and sheltered from the cold until such time as they can be moved across the bay or to new homes when built.

Three men were detected by guards of the sub-treasury on Commercial street last night attempting to tear away bricks near one corner of the building. When ordered to throw up their hands, they tried to escape. The guards at once shot them dead Troops guarding the Hibernia Bank building, at Jones and McAllister streets, found four men attempting to break into that building. The soldiers captured them without firing and turned them over to superior officers to be court martiled. Looters broke into Schenfeldt's grocery on Octavia street. Women tried to get some provisions, but men who were intoxicated trampled them down. Ten men from Company B, Sixth regiment, were passing the place and the women appealed to them. J. P. Riordan, son of a real estate agent who lives in the neighborhood grabbed a gun from one of the guardsmen and called him a "tin soldier." Riordan was shot at once

New York, April 23.—The Western Union at 9:30 a. m. today, received the following dispatch from San Francisco: "It has been raining since midnight here, causing much suffering among the refugees."

Oakland, Cala., April 23.—Cold rain set in at one o'clock this morning, and kept up until daybreak, drenching those sleeping under blankets in the parks, and making miserable the soldiers on duty.

Today will mark the end of the conflagration unless some untoward circumstances start it again in the residence section of the West End.

Fear of an epidemic is gradually lessening. The rain this morning flushed the sewers and cleaned the streets and camps.

Oakland, Cala., April 23.—After a thorough inspection of the burned district, by the insurance commissioners and underwriters the statement is made that the insurance loss is approximately $175,000,000, and the total loss is $300,000,000. The underwriters will meet today to perfect a plan for paying the losses.

San Francisco, April 23.—The task of restoring the water supply is well under way. Large spuads of men are repairing the water mains in the burned section. The city will be well equipped for water by noon.

The health officials estimate that 500 bodies of victims so far recovered, have been disposed of, by burial or cremation.

A Mother's Terrible Deed.

Philadelphia, April 23.—Following a bitter quarrel with her husband, Mrs. Mary Fahn, aged 41 years, early this morning made a desparate attempt to kill her entire family by gas. She succeeded in ending her own life and that of her two daughters, Tillie, aged 15 years, and Annie, aged 11 years, but the husband, Kraft Fahn, and two sons, Alois and Harry, aged respectfully 16 and 13 years, escaped with their lives, though the boys are in the hospital. The quarrel between husband and wife occurred on Saturday night. All day yesterday Mrs. Fahn brooded over her troubles. At 9 o'clock last night she ordered all the children to bed. She waited up, apparently expecting her husband to return. He angrily declared that he did not propose going to bed and laid down upon a couch and went to sleep. Mrs. Fahn then went upstairs and made deliberate preparations for the destruction of her family. All the doors and windows were carefully caulked up with clothing and paper and, without herself undressing, Mrs. Fahn lay down beside her two daughters, having first turned the gas on full in both her own room and that occupied by her sons, the door of which she locked. Mr. Fahn was awakened in some manner early this morning, smelled the gas and rushing upstairs broke down the doors and discovered the triple tragedy. He also arrived just in time to save the lives of his sons, both of whom were unconscious.

Miners Averse to a Strike.

Wilkesbarre, Pa., April 23.—Possibilities of peace in the anthracite coal industry are growing brighter, and there are indications that a majority of the delegates to the tri-district convention to be called by John Mitchell some time this week will vote against a strike. Union officials have been testing the sentiment in the various locals throughout the region and have found it uniformly against a strike. The miners say that if President Mitchell and the leaders do not insist on a strike, or the operators try to bring on trouble by attempting to operate the mines with strike breakers, they will vote for any proposition that will return them to work. Many miners favor the operators' proposition of submitting the question of wages and change in conciliation board to arbitration, believing that the arbitration board would undoubtedly give them a five per cent increase in pay. Members of the miners' scale committee as well as the operators have canvassed the regions from Scranton to Shamokin, and it is an open secret that they have found the men against a strike. A few operators are reported to have said that they favored a strike, believing that the time was propitious for smashing Mitchell and his union.

Earthquake Shocks in Oregon.

Portland, Oregon, April 23.—Between 1 and 1:05 o'clock this morning a distinct earthquake shock was felt through parts of Oregon. The shock was so heavy at Glendale, according to a dispatch received from there, that houses rocked and china in closets was broken. In some instances furniture toppled and fell. The disturbance was felt here at 1:11 o'clock. From Grant Pass comes word that shortly after one o'clock the earth began to quiver and shake violently. No loss of life or property damage has been reported, but uneasiness is felt that the earthquakes have extended this far up the Pacific coast.

The Olympic Games.

Athens, Greece, April 23.—The city is full of excitement today because of the opening contests of the Olympic games. Today will be devoted to fencing, shooting, football, lawn tennis, and cycling. Thousands of persons crowded into the Stadium to witness the games and the scene was a decidedly brilliant one. The reception to the international contestants last night at the exhibition building known as the Zappion was a great success. The illumination of the Acropolis was singularly beautiful. Tonight there will be a torchlight procession headed by 800 soldiers through the principal streets.

Contributions for the Sufferers.

New York, April 23.—The contributions to the funds for the relief of the victims of the San Francisco disaster have already reached to the enormous total of over $13,000,000, while gifts of clothing, food, and supplies of all sorts continue to pour in. From nearly every part of the civilized world have come offers to help. From nearly all the cities within 1,000 miles of San Francisco supplies have already been sent to the unfortunate city and on every trans-continental line specials are speeding across the continent to the relief of the needy.

Father Gapon Hanged.

Manchester, Eng., April 23.—The Guardian states that Father Gapon, the former leader of the St. Petersburg workingmen, was hanged by revolutionists on April 10. Father Gapon was the leader of the workingmen in the demonstration of Red Sunday in January, 1905. He was compelled to flee from the city and later was accused by the revolutionists of betraying their cause and selling out to the government. Press dispatches several days ago announced that Gapon had disappeared, and that an appeal had been made to the police to find him, as foul play was feared.

The Deposed "Apostle."

Chicago, April 23.—John Alexander Dowie, "First Apostle" of the Christian Catholic Church, ingloriously remained in his apartments in Chicago, Sunday, while General Overseer Voliva, his arch-enemy, triumphed by delivered a philippic in Zion City Tabernacle, where Dowie hoped to preach. The "First Apostle" contented himself by threatening to invade Zion City later and attributing the San Francisco earthquake to divine intervention to punish its citizens for ridiculing him in 1888.

Condition Critical.

New York, April 23.—The condition of Miss Harriet Waters, the actress who was seriously injured in an automobile accident on the Merrick road, between Baldwin and Rockville Centre, Long Island, yesterday afternoon, is grave to day, and the physicians of the Nassau Hospital, at Mineola, Long Island, where she is a patient, entertain little hope for her recovery.

Bicyclist Injured.

Luton, England, April 23.—Whitelaw Reid, the United States Ambassador, while returning from Wrest Park in a motor car ran down a man on a bicycle seriously injuring him. Mr. Reid procured a surgeon to treat the man, and has furnished him with another suit of clothes and a new bicycle.

Donation from the Pope.

Copenhagen, April 23.—Dispatches received here from Reykjavik, Iceland, state that three Iceland fishing boats sank during a recent storm and that 70 members of the crews were drowned.

New York Stock Market.

New York, April 23.—Considering the disturbing nature of events connected with the San Francisco calamity, price movements on the stock exchange this morning were narrow. At first prices declined and later advanced. Later again the list dropped generally from ½ to 1½ per cent.

Dear Sirs: You are a maker; so are we. You know what you make: you know all about it. We know our paint as you know your goods.

We know what it is, how it acts, what it does, how it lives, and how long—the conditions being favorable or unfavorable.

It is fair that we take the risk of it every way; but we ought not to risk any use or abuse of it.

Can't draw the line. We are dealing with strangers. We are strangers to them as they are strangers to us.

We want to be trusted by them. We trust them first; that's the way to get trusted. We trust them to paint with a fair degree of common paint-knowledge and care. We expect to be trusted to furnish paint as good as paint can be, and to last as long as paint can.

If you do your business that way, you are a fellow with us and one of a thousand.

A few mean men in the course of a year will abuse our trust and put us to loss; but 999 in 1,000 will tell their friends how true we are, and our paint is. That's what has made us the largest paint concern in the world. It is our best advertisement.

Yours truly

The fifteenth congress of the Daughters of the American Revolution closed its session in Washington, Saturday night. The only incident of interest was the resignation of Miss Mary Desha, recording secretary-general, upon whose report the congress declined to take any action other than to receive it.

The wildest excitement prevailed when Miss Desha, after making direct charges of unfairness and bad faith against President General McLean, tendered her resignation, which was accepted by a vote of eighty-eight to eighty-one. Her resignation read as follows:

Members of the fifteeth continental congress: I hereby tender my resignation as recording secretary general, finding it impossible to perform the duties under the present administration. Thanking you for past courtesies and assuring you of my continued interest in the society, of which I was one of the founders, I beg to remain, Mary Desha.

Mrs. Ammon was elected secretary pro tem.

Miss Brockenbrough Dead.

The woman who buried Latane is dead. Mrs. Catherine Nelson Brockenbrough died Saturday in the Richmond Home for Old Ladies, at the age of 96. Who has not seen the well-known picture, "The Burial of Latane," and marked the beautiful woman in the foreground reading the burial service over the body of the dead young Confederate officer? It was Mrs. Brockenbrough. She received the body of the soldier. A negro carpenter made the pine coffin, and, with no white man near, she, with the aid of the servants, buried him. She was one of the most popular women in Washington during the administration of President Tyler. She was the daughter of Cary Nelson, of King William county, and was one of the most brilliant women of her time. She married Dr. W. F. R. Brockedbrough, whose distinguished services in the Confederacy are part of history. She leaves a large number of grandnephews and grandnieces.

Assaulted a White Girl

Miss Lena Rodgers, aged 16 years, daughter of Rudolph Rogers, a farmer of King George county, was criminally assaulted Friday evening by Gabriel Battle, a negro. She was walking along the roadside when she was met by the negro, who is 17 years old. He attacked her, knocked her down and dragged her to the bushes on the roadside, where he committee the assault. As soon as she was able Miss Rodgers reported the occurrence to her parents, who notified the county authorities. A posse was soon hunting for the negro. He was captured and lodged in jail. He was given a speedy hearing before a magistrate, who sent his case to the grand jury. It is likely a special term of the court will be called to try him.

Severe Hailstorm

A severe hailstorm, which covered a large part of Norfolk county, late yesterday afternoon, did immense damage to growing truck crops. In places the stones covered the ground to the depth of an inch. Strawberries, cabbage, peas and beans are now at that period in their growth when hail will do them the most damage, and many of the young plants were literally knocked to pieces. Whole fields have been practically destroyed, although the full extent of the damage will not be known for a day or two. There are sections of the county where it is known to have hailed yet to be heard from as to the extent of damage done in them. The hailstones were of not unusual size, but came down as thick as rain drops.

Twenty-two Miners Killed.

As the result of a dust explosion in a mine of the Colorado Fuel and Iron Company, forty miles west of Trinidad, Col., yesterday, twenty-two miners are known to be dead, and one other is missing. There were forty men in the mine at the time of the explosion. Seventeen miners who were working 3,700 feet from the entrance, escaped uninjured through another opening. The explosion occurred in rooms 3 and 4 near the main entrance, and was the result of a windy shot, which ignited the dust. The mine was not badly damaged, and work can be resumed in a couple of days.

The Orkney Springs property was sold on Tuesday to Mr. J. C. Pickford of Washington, for $11,850.

River Notes.

The steamer River Queen arrived at Woodall's shipyard, Baltimore, early yesterday morning from Washington, acting under a charter given by Secretary Charles J. Bonaparte to carry the members of the Oratorio Society to Annapolis to attend the burial of John Paul Jones on Tuesday.

The old steamer Kent has been placed on the Maryland flats opposite this city. It is said that after the metal shall have been removed, the hulk will be burned. The remains of three steamers now lie within a distance of a few hundred yards —the ribs of the old ferry steamer City of Alexandria, the hull of the burned steamer Columbia and what is left of the Kent.

A day or two ago one of the Norfolk steamers collided with the schooner Mayflower between this city and Washington. The schooner, which was but slightly damaged, is now at the shipyard.

The captain of the schooner A. E. C. Cunningham, now lying at the shipyard, a day or two ago resorted to heroic measures in order to rid the vessel of rats which had virtually taken possession of her. He had holes bored in the schooner so as to allow her to sink. The rodents were forced to the upper deck and chased overboard.

The schooner Clayton, from Baltimore with coal to W. A. Smoot & Co., has arrived.

The steamer St. Johns made a trip to Colonial Beach yesterday. She stopped here on her way down. The St. Johns carried building material which is to be used at the beach.

The schooner William Donnelly, from Severn river with sand to the Old Dominion Glass Works, is unloading at W. A. Smoot & Co's wharf.

The steamer Dennis Simmons, from Williamston, N. C., loaded with lumber, passed up to Washington today. She will arrive here tomorrow with consignments to Smoot & Co. and H. K. Field & Co.

Funeral.

The funeral of the late B. Arell Milburn took place this evening from the residence of his father, Mr. J. C. Milburn, on Duke street, and was quite numerously attended. The services were conducted by Rev. P. P. Phillips of St. Paul's Church and the pallbearers were Messrs. Gardner L. Boothe, Clarence C. Leadbeater, Douglass Stuart, Urban S. Lambert, Lawrence Perry and J. Parker Milburn. The following paragraph is taken from the New York Times of April 21st:

Benedict Arell Milburn, a lawyer and a member of the editorial staff of the American Law Book Company, died of cerebro-spinal meningitis at the New York Hospital yesterday morning at 5 o'clock. Mr. Milburn was at various times connected with the Edward Thompson Company of Northport, L. I.; the Bender-Chaquette Company of San Francisco, and the L. D. Powell Company of Los Angeles. He was the author of "Milburn's Curious Cases" and of "Milburn's Office Boy's Digest." The larger part of his writings, however, appear in the several cyclopedias of law. He is survived by a widow, his father, J. C. Milburn of Alexandria, Va.; his mother, and three sisters.

A Guaranteed Attraction.

The Chauncey L. Southern Company arrived in this city yesterday evening from the north, carrying with them a carload of scenery and electrical effects. There are eighteen people in the company. The Southern Company is highly endorsed as being one of the best repertoire companies on the road, and have been playing to crowded houses. Manager Harper endorses this company as being par excellence, and any one not being fully pleased with any piece played by the company will have his money returned to him. The opening attraction tonight will be "Lost Paradise," a melo-drama of merit, the drama that the Huntley-Moore Stock Company played in this city two years ago and made a distinct hit. Popular prices will prevail, except for the first four rows of reserved seats, for which 50 cents will be asked.

Yesterday.

The weather yesterday was rainy and threatening. Early in the night there were showers with thunder and lightning. The churches had average congregations at both morning and night services. A letter from Mayor F. J. Paff and the proclamation by Governor Swanson concerning the California earthquake were read from the pulpits of several of the churches and collections for the sufferers were also taken up in a number of the churches. Arrangements have been made for taking collections for the sufferers in the other churches. The ministers in their sermons in a number of instances made reference to the terrible disaster.

In Trinity M. E. and the Baptist Churches yestereay collections were made for the sufferers.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

William Edwards, colored, arrested by Officers Ferguson and Arrington charged with disorderly conduct and carrying concealed weapons, was fined $10.

John Howard, colored, arrested by Officers Beach and Garvey charged with disorderly conduct, was fined $10.

George Shirley, colored, arrested by Officers Knight and Ferguson charged with assaulting and beating Maggie Allen forfeited $5 collateral by failing to appear.

Benjamin Simpson, who had been arrested for firing a pistol in the street, was fined $5.

The Fishery.

There was an increase in the receipts of herring yesterday and prices was weaker. They sold as low as $2.50 per thousand. Today, however, prices showed an advance, herring being quoted at from $3 to 3.50. Shad are scarcer and prices remain firm at former quotations. The westerly winds of today will temporarily retard operations.

Aid for the Sufferers.

Mayor Paff has appointed a committee of citizens to receive donations for sufferers from the recent earthquake and fire in San Francisco. The cause appeals to all classes of people and the donations will doubtless be liberal. The following gentlemen compose the committee: H. K. Field, F. S. Harper, L. Ruben, Thos. Carter, R. E. Knight, M. B. Harlow, E. E. Lawler, G. W. Ramsay, B. Wheatley, jr., and Albert Smoot.

A meeting of the committee was held this afternoon at Mr. R. E. Knight's store, when Mr. H. K. Field was chosen chairman, Mr. F. S. Harper, secretary, and Mr. Albert Smoot, treasurer. Mr. C. L. Southern appeared before the committee and offered the services of his company and himself who will give a performance for the benefit of the sufferers at the Opera House next Wednesday afternoon at 3 o'clock. A committee of three was appointed to ask the ladies of the city to aid in the disposal of the tickets. They will be on sale by Mr. Edgar Warfield, jr., in the eastern section of the city, and by Carter & Bros. in the western. Postal cards will be sent to each male resident of the city soliciting contributions in behalf of the sufferers.

President Isaac Eichberg, of the Hebrew Congregation of this city, has appointed Messrs. L. Ruben, B. Weil and M. Morris a committee to solicit contributions for the California sufferers.

Found Dead.

Mr. Taylor Blunt, a well-known resident of the Gum Spring neighborhood in Fairfax county, was found dead in his bed this morning. The deceased had been complaining yesterday of indisposition, but he manifested no evidences of serious trouble, having attended church during the day, and retired last night as usual. Not appearing this morning at his accustomed hour, a member of the family repaired to his bedroom and found that he had been dead for some time. The deceased leaves a widow and two sons and a daughter. He was well-known in Alexandria, he having been a regular attendant upon the market, and was here last Saturday. Mr. Blunt was a native of New Hampshire, and with his wife removed to this section shortly before the civil war. During that conflict he was employed in the transportation department of the government. He was 70 years old.

[Judge C. E. Nicol presiding.]

Skating Carnival.

The officers of the Alexandria Light Infantry and the managers of the skating rink at Armory Hall will give a skating carnival on Wednesday, Thursday and Friday nights. No admission fee will be charged, but donations will be expected from those who attend to aid in alleviating the distressed persons in California.

Concert and Reading.

There will be a delightful entertainment at Lee Camp Hall this evening under the auspices of the Seventeenth Virginia Chapter. The ladies having the affair in charge have secured the services of the best musical talent of this city. In addition to this there will be readings by Mrs. Champ Clark and Mrs. A. T. Hanson. An enjoyable time is anticipated.

Change in the Weather.

The showers of last night were followed by colder conditions at an early hour this morning, since which times westerly winds and occasional light rains have prevailed. At seven o'clock this morning the mercury stood at 49°. Fires and overcoats are again found to be comfortable.

Bridge Club.

The Senior Bridge Club has adjourned sine die. The greatest number of stars were won by Mrs. S. G. Brent and Mr. T. C. Smith. No trophies were given, the money collected for that purpose being handed in to the fund now being raised for the San Francisco sufferers.

We Probably Have It.

A good many people make the mistake of going to Washington to get something they could buy at home, do not look for it here, just jump to the conclusion that such things are not to be had in Alexandria.

We would like to state to those contemplating purchasing a fine watch, or diamond, or other fine piece of jewelry, clock, silverware, cut glass, etc., that we have a large and complete stock of the above mentioned goods and which we offer at a lower price than is asked for the same goods in Washington.

Track and Field Meet.

Last year a track and field meet was held at the Episcopal High School on the first Saturday in May, and it has been determined to repeat it this year on the same date.

This year, as last, the events will be divided into three classes, which are arranged according to age of the contestants. The first class events are open to all school-boys in the District, Maryland, or Virginia. They consist of: 100 yard dash, 220 yard dash, 440 yard dash, 880 yard run, one-mile-run, 120 yard hurdles (3 feet 6 inches), 330 yard hurdles (2 feet 6 inches), high jump, broad jump, pole vault, and shot put (12 pounds), together with several relay races (1 mile). The second class events are open to all who on October 1, 1905, had not reached their 17th birthday, and consist of: 100 yard dash, 229 yard dash, 220 yard hurdles, broad jump, and pole vault. The third class events are open to any boys who on October 1, 1905, had not reached their 15th birthday, and consist of: 100 yard dash, 220 yard dash, and 440 yard run.

The event of the day, however, will be the dual relay race between Woodberry Forrest School and the Episcopal High School; and to the winners in this and other relay races Handsome trophies will be awarded. The other relay races, in the first class, will be in two divisions. The first made up from three to five of the following: Central H. S., army and navy Preps., Boys' Latin School, Western H. S., Georgetown Preps, and Technical H. S. The second will be made up of not less than three nor more than five of the teams a little slower than the above.

In addition to the relays mentioned above, one or more relay races are expected in the second class, and will be run off if as many as three enter. Relay races in the third class will be run off similar to those in the second class. In both second and third class relays, each person will run 220 yards, making a relay of half a mile. Also a midget relay will be run off between youngsters, under 14, from Milton Academy, and other teams of the same age, if as many as three enter.

Entry blanks have been sent to over sixty schools. Thirty-six schools have already accepted, and 250, if not more, contestants are expected and will, without doubt, put up a spirited contest for the interest and amusement of the large crowd of spectators that are expected.

The track is now being completely leveled and will, as it is expected, prove a fast clay track, which, though too hard for training, is excellent for a race. A mere glance at the list of officials given below, is a sufficient guarantee that the event will be run off rapidly without a hitch; in fact as well as, if not better, than they were last year, by almost the same officials.

Officials, 1906—Announcer, Mr. A. M. Crawford; starter, Mr B. I. Wefers; scorer, Mr. J. M. Daniel, jr.; inspectors, Messrs. Munsey Gill, E. P. Dandridge, Jas. Gibson, H. C. Berkley. Clerks of Course, Messrs. A. R. Hoxton and C. J. Faulkner. Judges, Messrs. J. S. Walker, W. W. Old, jr., R. E. Lee, jr., W. H. Foley, W. G. Stuart, W. P. Bowee, W. C Thatcher, W. H Randolph, P. T. White, Sam Steinmetz and Drs. S. L. Owens, W. A. Lambeth, G. W. Orton, J. A. Rilly.

Don't tie a cough or a cold up in your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Honey and Tar. It is better. It opens the bowels. An ideal remedy for young and old. Children like it. Sold by W. F. Creighton & Co., 402 King street.

Attacked by Vultures.

A large number of enormous vultures, probably emboldened by hunger, are spreading terror in the valley of Couches, Canton of Valais, Switzerland. They have been preying upon sheep and cows, attacking the animals with great ferocity. A shepherd who attempted to protect a sheep a few days ago was attacked by the birds, and had to run for his life. A valuable bull was so badly injured in a long fight with the birds that it had to be shot. Friday, near the village of Muhleback, the vultures attacked a young girl in a meadow, and before help could arrive wounded her severely. Her hair was torn out and one eye was injured.

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Can you believe your senses?

When two of them, taste and smell, having been impaired if not utterly destroyed, by Nasal Catarrh, are fully restored by Ely's Cream Balm, can you doubt that this remedy deserves all that has been said of it by the thousands whom it has cured? It is applied directly to the affected air passages and begins its healing work at once. Why not get it today?
